# WOMEN LAWYERS ORGANIZE NEW CLUB

That women members of the legal profession in Memphis realize added privileges under recent suffrage legislation carry with them added responsibilities was evidenced when the women lawyers of the city met at the office of Miss Marion Griffin in the Bank of Commerce building late Tuesday and organized the Women Lawyers' club. The club will be incorporated and it is the purpose to broaden its field so as to receive into membership all women lawyers in the state. There are a number of such clubs in the North and East, but this is the first in the South. The purpose of the club are to assist the members in maintaining high ideals of the profession, and to discuss questions of public interest. The women present at the organization meeting were Miss Frances Wolf, Miss Susan Anthony Kirkpatrick, Miss Marion Griffin, Miss Katherine Watson and Miss Ruth Goehard, these being the only women now licensed to practice law in the city.

# CHIROPRACTIC FOR STOMACH TROUBLE

The cause of stomach trouble is not any more in the stomach than head-ache is in the head. The effect is in the stomach and the head, but the cause lies in the backbone where displaced (subluxated) vertebrae are pressing on the nerve cables, shutting off the flow of nerve energy which should be going to these parts. If your stomach is fed with 100 per cent of nerve energy, your stomach will not trouble you. Consultation and Special Analysis Free.

**LEONARD**  
Cleanable  
Refrigerator

The cost of operating a refrigerator in your home is not entirely how little ice it uses, but also how much food it saves or spoils—how pure and sweet it keeps—how thoroughly it safeguards family health.

Many people cover the ice with papers which prevent melting, but you can't keep your refrigerator thoroughly cold without melting ice any more than you can run a motor car without using the gas.

The Leonard is built to deliver 100% of cold, sanitary refrigeration. 10 walls of insulation keep the warm air out and maintain a steady low temperature inside.

This cold dry air continuously circulates throughout. To compare the sanitation we use a one-piece lining of pure white porcelain, without a crack, seam or corner for grease to hide in, so hard it cannot even be scratched with a knife point. This lining covers every particle of wood and at the inside corners of the door is rounded so that every particle can be easily wiped out. The racks are of woven wire, retinned. The drain pipe of pure copper, heavily nickel-plated, is instantly removable for scalding.

100% refrigeration—100% food economy—100% sanitation are yours in the Leonard Cleanable. There is a style and size Leonard to meet every purse. Rear icing door and porcelain lined water cooler if desired.
